ABOUT ME

I am a dedicated B.Tech Computer Science Engineering student at Sage University, focusing on a specialization in Cyber Security. Alongside my academic pursuits, I am gaining hands-on experience through an internship at Dhiyotech. With a passion for safeguarding digital landscapes, I am committed to expanding my knowledge and skills in the realm of cybersecurity to contribute effectively to the evolving technological landscape.

MY QUALIFICATIONS

- 10th With 83.2% (State Board) G.D.N School, Pipariya 2018
- 12th with 72.3% (State Board) G.D.N School, Pipariya 2020
- Pursuing B-tech with CS stream and Specialization in Cyber Security Sage University, Bhopal (2024)

PROJECTS

Team Member
University Level **"Encryption Web-Based Application"**

We have developed a web-based application for encryption and decryption. This takes an image or text and converts it into cipher text with a password as a key. We used HTML and CSS for the frontend and JS as the backend language.

Project Leader
University Level **"Web Based Room Rental web Site"**

Developed a room rental website using HTML, CSS, and JavaScript for frontend with Python as the backend, leveraging the Django framework. This project facilitates user room searches and property listings, improving accessibility and rental search convenience for those in need of housing.

Search :- Room seekers can easily search for rooms based on location and price through the website.

User Authentication:-The website features user authentication with email OTP verification and allows two types of user registration: room seekers and room owners.

Booking :-Room seekers can use the website to book available rooms.

List Room :- Room owners have the option to list their rooms for rent on the website. They can provide pictures of the room, details about the location, information about the room and area, as well as specify the number of rooms and bathrooms available.

SKILLS

- Python
- Web Development
- Django (Framwork)
- HTML
- CSS
- PHP (Basic)
- JS

WORK EXPERIENCE

During my internship at Dhiyotech, I worked as a Software Developer Intern, where I created a Python automation bot that streamlined tasks and collaborated with the team to troubleshoot software issues. I also gained basic proficiency in WordPress and PHP, enhancing my web development skills and industry insights.

CERTIFICATES

- Python Programming (Cybrom Technology)
- Intro to Cyber Security (Samatrix.io)
- Cyber Security (Sage University)
- Internship Certificate (DHIYOTECH PVT)
